How OpCon Makes Credit Unions More Agile and Competitive

OPCON

Find out why so many credit unions automate their mission-critical operations with OpCon.

What is OpCon?

OpCon is a powerful, scalable, and easy-to-use workload automation and orchestration platform.

What You Can Do With OpCon

Orchestrate your organization's data seamlessly

Streamline critical processes within and outside your core

Automate disaster recovery procedures

Automate payment processing, loan origination and servicing, and more

Send, retrieve, and process daily files to and from The Fed and third-party vendors

The Benefits Of OpCon

Elevate your member experience

Enable smart scaling of your business without adding headcount

Streamline or entirely eliminate manual tasks

Boost employee productivity, morale, and efficiency

Get time back to focus on strategic initiatives that keep your business competitive

Reduce processing errors, and minimize costly outages and downtime in a crisis

Trusted by 700+ Financial Institutions

> *I don't know if there's an application that OpCon can't support. It can run a process for anything."*
>
> John Cozart, *Vice President of Information Technology at Robins Financial Credit Union*
