

## Enjoy the power and scalability of OpCon - now on the cloud

### Reduce internal costs

With OpCon Cloud, you eliminate the cost of expensive IT hardware and software licensing fees, and the staff required to support your infrastructure. Our white-glove service provides you with everything you need – at a lower overall cost of operation.

### Improve business continuity

Whether you experience a natural disaster or other major disruption, your applications and data are securely backed up and protected with OpCon Cloud, allowing you to continue running your mission-critical operations as normal.

### Focus on growing - no maintaining

Easily scale as your business needs grow. No more worrying about maintaining or upgrading your processing and storage capacity to manage increased workloads. We handle all that for you, freeing up time for you and your staff to focus on more strategic contributions

### Get up and running in as fast as 24 hours

We don't believe in wasting time, and we pride ourselves in getting you up and running fast. Once you gain connectivity, we can have you up and running in as little as 24 hours.

Enterprise Power  
and Scalability

Fast, Easy  
Automation

Satisfaction  
Guaranteed

**"It makes everything simpler. We don't have to worry about whether a process will be missed. It will run every single time. With OpCon, everything is done."**

- Operations Analyst, Financial Services Firm, 10,000+ Employees

### Drive Savings with OpCon Cloud

Eliminate expensive licensing fees and reduce overhead costs maintaining hardware. OpCon Cloud helps you save on costs from disaster recovery preparedness, too. And best of all - OpCon gives your department valuable time back to work on more strategic work.
